

# Alliance Brass

A Brass Quintet

## PRELIMINARY TECHNICAL RIDER

1. **ARRIVAL:** The band will arrive at your auditorium about 4 hours before the performance begins. Thanks for being well prepared to help them present the best possible concert for your audience.
2. **STAGE:** The minimum stage size is 30' wide x 25' deep. The performing area should be free of sets, props and equipment, and be swept clean.
3. **SOUND:** The band will use the house sound system. One or two mics on straight stands for speaking to the audience are needed.
4. **VISUAL:** The artist will carry video projection and screen. The house could supply projection and screen when present in the venue with a technician.
5. **HOUSE SOUND TECHNICIAN:** Please have the house sound technician available to assist in setting up and running sound for the performance.
6. **LIGHTING:** The best available lighting will be used. At minimum, there must be a warm wash over the performers. If colored gels and/or specials are available, they can be set upon the band's arrival.
7. **HOUSE LIGHTING TECHNICIAN:** Please have the house lighting technician available to set and run lights for the performance.
8. **DRESSING ROOMS:** Two clean, well heated/cooled dressing rooms are needed. One large enough for 5 men; one for 1 woman. Both should be equipped with chairs, mirror, clothes racks and waste basket. Both should be near private lavatory facilities and the stage.
9. **HOSPITALITY:** 12 bottles of water and a few granola bars, fresh fruits & veggies upon arrival. Hot meal for 5, 2 hours prior to the performance. Consult with the artist a few days in advance.
10. **CD SALES:** One table in the lobby from which to sell CDs, and one volunteer to assist.

Thank you!
